

■ PRESIDENT'S ADDRESS

The Season of Hope...
I heard someone say President Obama's Nobel Prize acceptance speech was her favorite political moment of 2009. Apparently it was the *hope* of peace from his presidency that made it memorable for her. Yes, hope is a powerful thing, but how to transform hope into reality? How to go from the hope of economic recovery to tangible bottom line results?

What is your marketing plan for 2010? What is your internet strategy?

To stay competitive, the chapter has partnered with DSA Publishing & Design to update our website. In order to build the ASID brand and drive traffic to our home page, DSA will be advertising in California Home + Design, a premier Bay area publication for discerning consumers. The magazine will also be the exclusive sponsor of our chapter website. For more information, see page 12.

I hope you will capitalize on this exciting opportunity and make the chapter website a part of your marketing mix. By linking your website, blog, and other online presence to the chapter website, you will improve its internet search ranking. This will increase your exposure to potential clients, and help grow your business.

Since we are on the subject of the internet, what's your social networking IQ? Although it's a challenge to keep up with the explosion of information, don't succumb to the "ostrich syndrome" – ignoring Facebook and Twitter will certainly not make them disappear!

Want to learn about social networking to build your business or advance your career? Come attend our April program at Design Mart Silicon Valley. The presentation is tailored for the design industry so you will get valuable information regardless of experience. It is one event you can't afford to miss!

■ MISSION STATEMENT

The California Peninsula Chapter of the American Society of Interior Designers (ASID) will promote awareness of ASID to the public and help our members maximize their marketing efforts. It strives to create a collegiate atmosphere and facilitate collaboration by and between all its members and the allied professions.

■ UPCOMING EVENTS Lunch & Learn: How to Recognize Fine Furniture

Style and Quality Sells...Even in a Recession!

Please join Jeff Weiss, our Industry Partner from Century Furniture at our January Lunch and Learn. Jeff will tell us about the latest and greatest from one of the largest and most successful furnishings companies in the world, Century Furniture. Century is still family owned, manufactures 90% of its furniture in the USA and even has its own fabric mills.

Jeff will also give us the benefit of his years of experience in the furnishings industry in how to recognize the qualities of fine furniture and how to promote these features and benefits to your clients. Learn the talking points to educate your clients on the true value of quality furnishings vs. Pottery Barn, Crate and Barrel and the Internet!

Yummy lunch will be served!

Become a certified green designer

GREENleaders

Certified Sustainability Training

Studies have shown that 50% of people who have or ever would seriously consider hiring an interior designer would hire a certified green designer if they knew one. To help you maintain relevance in a rapidly changing market, local ASID chapters are partnering with Sustainable Furnishings Council in presenting this industry first, 6-hour (6 ceu) exam course. Written by a LEED AP, it is the most complete training available in green residential to give you the knowledge and credentials you need.

This industry first, 6-hour exam course was developed with the support of the Sustainable Furnishings Council, the #1 green organization with board members including ranking staff of World Wildlife Fund, Rainforest Alliance, and one of the co-founders of the USGBC. This is the most comprehensive green furnishings training program available, providing manufacturers, reps, retailers and designers with the knowledge and credentials to be recognized as experts in green residential. Written by an accredited LEED-CI/AP. (.6 ceu, IDCEC#1316))

REGISTRATION FORM

GREENleaders is being offered live as a 6-hour program or a six-week webinar for \$299.

Passing participants will receive a Certificate of Course completion, business cards, and a copy of the SFC Green Furnishings Consumer Study. Participants are then encouraged to become full members of the Sustainable Furnishings Council at 25% off first year dues and entitling you to logo use, a live link in the SFC searchable database, ongoing education, and other special discounts and offers.

Home Entertainment Trends: Opportunities for Interior Designers

Bay Area Gadgets' James Stout will discuss the latest Home Entertainment trends and how designers can enhance client living spaces while improving entertainment lifestyles. Consumers are quickly moving from a single large flat panel display to multiple displays in kitchens, bedrooms, and even bathrooms. Event co-host Valet Organizers has rare insights into the design and construction of Home Entertainment cabinetry. James has completed 300+ projects with the overriding goal of hiding all the cables, components and speakers. Thin TVs are more about aesthetics than technology. Discover how these trends can create profitable client engagements. As always, attendees will be treated to a tasty lunch and chance to win a Valet Organizers gift certificate valued at \$250.

Custom Glass Fiber Reinforced Concrete

Learn about the latest in concrete technology and how you can use Concrete in your design projects. Mark Lesnick will show you the manufacturing process of glass fiber reinforced concrete (GFRC), usable in many applications where conventional concrete cannot work because GFRC is thinner and lighter.

The only decorative concrete manufacturer in the area using a 99% recycled concrete that uses fly ash in place of cement, Mark Concrete is excited to bring this product to designers and architects who strive to use the greenest products available for the application. Mark Concrete was chosen by the materials supplier because of owner Mark Lesnick's extensive knowledge of the concrete industry.

This is a manufacturing facility, so dress accordingly.

The **NEW** NEW Chapter Website

Please join us for the roll out of our new chapter website in 2010! It has been redesigned to address the needs of 3 distinct audiences: Consumers, Prospective Members, and Chapter Members.

Consumers: DSA Publishing & Design is working with California Home + Design to promote the ASID brand through print advertising. The result will help increase traffic to our website. In anticipation of this, the "Find a Designer" function has been revamped. It now allows the consumer to browse the full list of practicing members, as well as search for designers by name, location, or area of practice.

Aside from the tradition of showcasing our Design Competition award winners, the new picture gallery in the home page will additionally feature members who want more exposure for their businesses. Please contact Duff Tussing at dtussing@dsapubs.com for details.

DSA is also providing search engine optimization for our website. Please help make this a success by linking your websites or blogs to the chapter website, www.asidcapen.org, which boosts traffic to our website from search engines through web code management. Since such efforts take time and rely heavily on the number of web links to the chapter site, we need all your help!

Prospective members: Prospective members will be able to easily find and download application forms for all membership categories.

Chapter members: Since the latest chapter news and events are the most frequently visited pages of the site, the information will be readily accessible through multiple avenues on our home page. There is also a "members only" section, with login process similar to that of national ASID. Information here is germane to our organization's internal operations and of interest only to chapter members.

Coming to a Computer Near You!

www.asidcapen.org

Our new website will:

- Increase revenue to our designer members
- Give greater exposure to our Industry Partners and increase designer purchases
- Give student members representation as never before

We are in this together and together we will make 2010 a memorable year.
Go to www.asidcapen.org to see the new and much improved website!

To ensure your company is represented, please email dtussing@dsapubs.com
or call 888-747-7865 x 311

Come take a look at the new updated site and the enhanced search engine that drives consumers and companies to your profile.

INDUSTRY PARTNER TESTIMONIALS: Hunter Douglas

I look first to Hunter Douglas products when considering a window covering. The quality is consistent and if there's a problem, they have always taken care of it. I also like the customer service. I have had clients who purchased Hunter Douglas blinds years ago that asked about repairing them. Hunter Douglas in each instance has gladly taken the product in for repair at a reasonable fee.

Big Shout Out to Artistic Tile & Stone for hosting our January Chapter Event and IP Kitchen & Bath Spotlight! Thank you!!

■ NATIONAL NEWS

Interior Design Education Video Competition

Interior design students, educators and practitioners are invited to create a short video which conveys the importance of established interior design education and examination standards.

The National Council for Interior Design Qualification, Inc. (NCIDQ), the Interior Design Educators Council (IDEC) and the Council for Interior Design Accreditation (CIDA) are hosting and judging an interior design education video competition to demonstrate that interior designers are well educated, examined and skilled, and change how interior designers are seen.

Winners will each will receive a cash prize, certificate of achievement and an opportunity to have his or her video hosted on IDEC, NCIDQ and CIDA's Web sites. First Place will receive \$1000, Second Place will receive \$500, and Third Place will receive \$500.

For information and instructions, visit www.idec.org/videocompetition.htm. Please complete and upload videos to the IDEC Web site dropbox by February 15, 2010.

NCIDQ: New Section 3 Study Mtl

NCIDQ has study material for Section 3 of its updated exam. The new practice design problem (PDP) simulates the actual NCIDQ practicum exam, allowing candidates to simulate the drawing portion of the examination and apply the grading criteria to their solution in order to identify strengths and weaknesses in their knowledge areas.

Visit and find the new PDP as well as CE Monographs at NCIDQ's new online shopping cart, QShop, at <http://ncidq.3dcartstores.com>.

ASID 2010 Census

Practitioners can benefit for contributing to the census! With an ambitious goal of 100% practitioner participation, ASID is prepared to reward chapters whose members provide the census a high participation rate:

* Every month, beginning in November 2009, there will be a drawing for a prize (worth approximately \$200 – e.g., Amex gift card, iPod, etc.). All members who have filled out the Census questionnaire that month would be eligible for the drawing.

* Chapters with 50% or more participation rate will earn DOUBLE its chapter administration training stipend (good for the chapter!)

* National will pay for the airfare, lodging, and admission to ASID-related events at NEOCON 2010 (no CEUs, tours) for every participating practitioner for Chapters with 70% or more participation rate!

Help ASID Foundation w/ credit card purchases at no cost to you!

The ASID Foundation has partnered with We-Care.com to offer the We-Care Reminder. It allows the Foundation to receive a donation whenever you shop online at hundreds of participating merchants – at no extra cost to you. Whenever you visit a participating merchant, you'll be given the option to have a donation made. Turn money already being spent on gifts into support for the Foundation.

The Reminder is a browser extension for Internet Explorer and Firefox. It takes less than a minute to install on your computer. It is a breeze to download, and it works great!

- Go to <http://asidfoundation.We-Care.com/Start> and download the We-Care Reminder. (Then forget about it. It works automatically.)
- Ask your friends and family to do the same, even if it's only forwarding this email.
- If you blog, tweet, use Facebook, or are involved in any form of social media, spread the word!

Commissioning: Everything You Want To Know

We all want energy efficient buildings, but how do you know if the design systems within the building are compatible or are providing the desired efficiencies? Whether you have a new project or an existing building, commissioning can help you make sure you are achieving your energy design intent. Come hear the experiences of a seasoned commissioning agent and a general contractor to find out:

- * What is commissioning?
- * Why commission and what are the benefits?
- * What is required for LEED certification (NC, CS, CI, EB)?
- * What are the obstacles, challenges, and common mistakes and how can these be mitigated?
- * What are the costs?
- * How does commissioning for existing buildings differ from new construction and what are the special concerns?
